Kavya P

SUMMARY

Results-driven Full Stack Developer with 3+ years of experience designing, developing, and deploying scalable web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Experienced in building enterprise-grade SaaS platforms, real estate solutions, cloud-native applications, workflow automation, and CI/CD pipelines. Strong expertise in RESTful APIs, database management, cloud platforms, DevOps practices, and AI-powered business automation. Passionate about creating secure, high-performance applications that enhance user experience, streamline business operations, and support organizational growth. Adept at collaborating with cross-functional teams in Agile environments and delivering production-ready software solutions for international clients.

EXPERIENCE

Full Stack Developer 2023 - Present

SkyNetClouds Co., Ltd. **Bangkok, Thailand**

- Develop scalable full-stack web applications using React.js, Node.js, Express.js, MongoDB, and MySQL.
- Build secure RESTful APIs supporting enterprise business platforms.
- Design responsive user interfaces with a strong focus on performance and user experience.
- Implement CI/CD pipelines using GitHub Actions to automate build, testing, and deployment processes.
- Develop workflow automation solutions using n8n, reducing manual operational tasks by approximately 40%.
- Integrate AWS and Oracle Cloud Infrastructure APIs for real-time reporting, cloud resource monitoring, and cost optimization.
- Collaborate with designers, QA engineers, and stakeholders using Agile development methodologies.
- Optimize application performance, maintainability, and scalability through clean architecture and reusable components.

EDUCATION

Master of Science (M.Sc.) – Computer Science, Score: 88.48% 2019 - 2021

Bachelor of Computer Applications (BCA), Score: 85.72% 2016 - 2019

PROJECTS

AgentShades | MERN Stack

- Developed a customizable website builder for real estate professionals, enabling agents to launch branded marketing websites using reusable templates and intuitive design tools.

BuilderMatch | MERN Stack

- Built a marketplace platform connecting Canadian homeowners with construction and home improvement service providers through an interactive digital ecosystem.

BlueBrick Global | MERN Stack

- Developed a real estate platform featuring automated marketing, lead generation, and CRM integration to improve customer acquisition and engagement.

RedBuyers

- Designed and developed an iBuying platform for the Canadian real estate market, enabling homeowners to receive instant cash offers through streamlined digital workflows.

Enterprise CI/CD Platform

- Architected GitHub Actions CI/CD pipelines for multiple production applications, reducing deployment time, improving release reliability, and automating software delivery with integrated testing and quality assurance.

AI-Powered CRM & Appointment Automation

- Designed an enterprise automation platform integrating n8n, Retell AI, Follow Up Boss, GoHighLevel, and custom webhooks to automate lead capture, AI voice interactions, appointment scheduling, CRM synchronization, drip campaigns, and internal notifications.

TECHNICAL SKILLS

Full Stack Development, MERN Stack Development, React.js Development, Node.js Development, Express.js, MongoDB, MySQL, RESTful API Development, JavaScript (ES6+), HTML5 & CSS3, Bootstrap, Responsive Web Design, Cloud Application Development, AWS Cloud Services, Oracle Cloud Infrastructure (OCI), CI/CD Pipeline Implementation, GitHub Actions, Workflow Automation (n8n), AI Integrations, Webhooks, Version Control (Git), Software Architecture, Agile & Scrum, Debugging & Performance Optimization, **Programming: ,** JavaScript (ES6+), **Frontend:,** React.js, HTML5, CSS3, Bootstrap, Responsive Design, **Backend:,** Node.js, Express.js, **Databases,** : MongoDB, MySQL, **Cloud & DevOps:,** AWS, Oracle Cloud Infrastructure (OCI), GitHub Actions, CI/CD, **Automation:,** n8n, Webhooks, Retell AI, Follow Up Boss, GoHighLevel, **Testing:,** Mocha, ESLint, Unit Testing, Code Reviews, **Version** Control: Git, GitHub

ACHIEVEMENTS

- University Rank Holder – BCA - University Rank Holder – M.Sc. Computer Science
